HAR
Healthcare Accreditation Resources LLC
A PARTNERSHIP OF QUALITY

Dental Risk Management and Safety Programs

Healthcare Accreditation Resources LLC specializes in guiding dental practices through the often changing and challenging federal and state regulations. Based on the type of services and treatments provided by your practice, we will design a ***customized and prioritized program*** to guide your practice through successful implementation of health and safety regulations.

Specializing in OSHA and HIPAA Regulatory Compliance and Infection Prevention

ASK YOURSELF THESE QUESTIONS:

*Is your **Exposure Control Plan** current… and updated **annually**? Is annual review **documented**?*

*Do you evaluate, document and implement the use of **safety needles** and other safety engineered sharps?*

*Is **weekly spore testing** performed, documented and reviewed? Are you sure?*

*Do you provide **sharps containers** in every operatory or wherever sharps are generated/used?*

*Is your **SDS** catalog current and include the required **inventory** as well as sheets?*

*Is your training **annual, interactive**, and include all "elements" as required by the MA BORID and OSHA?* ***Do you know what the "elements"are??***

If you answered "NO" to any of these questions, you would benefit from the expertise and assistance of HAR, LLC.

SERVICES

Comprehensive Health and Safety Regulatory Compliance Program

We provide on-site audits and guidance to assure compliance with OSHA, HIPAA, and Board of Registration in Dentistry/CDC industry standards.

Alert! *Do You Know If:*

*…..The **ultrasonic solution** is prepared according to manufacturers specification/volume and the capacity of the unit tank? Is it labeled according to OSHA requirements (**chemical and biohazard labels)?***

*….**Self -contained water bottles** are properly maintained to reduce and eliminate the growth of CFU's? (Biofilm)?*
(Many manufacturers require a 2- step process)
Is water quality testing required?

*…. You have performed and documented the **required HIPAA Risk Assessment?***

*….Your equipment **Preventative Maintenance** program is documented and according to manufacturer and/or **BORID requirements?***

*….**All** instruments are packaged prior to the autoclave process? **Even Ortho instruments?***

*…..You have **wet packs? Internal Indicators?***

*….You have **written Post Exposure Protocols** for both the source and the employee?*

*….Your **Notice of Privacy Practices** is **posted** and has been **updated since 2013**? Have you assigned privacy and security officers?*

*….Do you have patients sign an **email consent** for **unencrypted or open** net work email?*

*…Have you included information about **texting** on your NPP and **an opt out** provision on your NPP??*

*…You have an **E (oxygen) tank?** Is it chained to the wall?*

A PARTNERSHIP OF QUALITY… A PARTNERSHIP LIKE NO OTHER

***Healthcare Accreditation Resources LLC** was established with the belief that the services provided must be individualized to each practice specialty, size and complexity. We believe that every job must be done well, and not just done.*

We have a 20-year history of partnering with dentists, physicians and healthcare organizations to realize their commitment to patient care and office safety. We provide sound guidance based on industry standards and scientific principles to assist the practice in achieving and maintaining these goals and the highest quality of healthcare delivered.

Call or email us with your questions. We look forward to assisting you in your practices needs.
