

CEREC Assistant: Foundation

Friday March 6th | 8:30 AM to 4:00 PM | \$495.00 / person
At Patterson Dental Training Center | 400 Research Dr. Suite 110 | Wilmington, MA

Presented by CAD CAM Trainer Talita Feuerstein

First level course in the CAD CAM ELEVATE for Assistants series.
Course designed to build a foundation for assistants who have limited or no clinical hands-on experience with CEREC.

We will review the CEREC software 5.0 workflow, and assistants will have hands-on practice with:

- **Set up, scan, design and mill a single posterior restoration**
- **Set up, scan and design a quadrant case**
- **Set up and design a Biocopy case**
- **Intra-oral scanning**
- **Stain & glaze of e.max CAD restoration**
- **Case Studies**

We will also cover basic equipment maintenance and troubleshooting such as:

- **Cleaning, maintaining, and calibrating Primescan and Mill unit**
- **Changing burs, changing water, changing filters**
- **Common system 'warning' messages and how to resolve them**
