Dentsply Sirona Academy

PATTERSON DENTAL

Course

Leveraging CEREC Digital Technology for Anterior Restorations

Course Description

Are you unsure of when and how to use CEREC for anterior restorations? Is it possible to deliver same-day anterior restorations with great esthetics? This lecture provides a comprehensive overview of using chairside CAD/CAM (CEREC) technology for predictable anterior restorations. Participants learn how digital workflows enhance esthetics, efficiency, and patient communication, reducing chair time and remakes. The course covers case selection, digital smile design principles, and using outside labs for complex cases. Participants learn how to incorporate CEREC INLAB for printing models when necessary.

Learning Objectives

By the end of this lecture, participants will be able to:

- **Identify appropriate case selection criteria** for anterior restorations utilizing CEREC technology, including veneers. When and how to work with an outside lab.
- **Implement an efficient digital workflow**-Learn when to deliver same-day single anterior restorations. Learn to print models using Inlab when additional time is required for staining, glazing, and finishing processes.
- **Using Digital Smile Design-DSD**- Incorporate DSD for case acceptance and workflow for complex cases. Discover how AI will transform the way case presentations are conducted.

Featured Speaker

Dr. Domenic D'Amico

Dr. Domenic D'Amico is a highly skilled dental practitioner who graduated from Tufts University School of Dental Medicine in 1990. In 1993, he established his dental practice in Watertown MA, where he has been providing exceptional dental care ever since. Dr. D'Amico has always been driven to share his knowledge and experience with others. He has served as a clinical instructor at TUSDM, imparting valuable skills to the next generation of dental professionals. He is a distinguished KOL for Dentsply Sirona, and his expertise in all aspects of dentistry has earned him recognition as a national speaker on digital dentistry. As a Patterson CEREC Basic Trainer, Dr. D'Amico provides training on the latest technological advances, ensuring that his peers remain at the forefront of their profession.
