LASER DENTISTRY
ELEVATE YOUR PRACTICE

Wednesday, March 18th 6:30PM - 8:30PM
Cost: Complimentary

2 CE
EDUCATIONAL EVENT

Join us for a lecture and discover how the 9.3-micron CO_2 all-tissue laser can elevate your practice through improved efficiency, patient experience, clinical effectiveness, and procedural expansion. This course merges clinical and business cases to demonstrate the benefits anesthesia-free, blood-free, and pain-free procedures provide you and your patients.

LEARNING CONTENT

- **Novel Technology:** Explore how the 9.3-micron wavelength enables precise, controlled tissue management of enamel, dentin, decay, gingiva, and bone.
- **Clinical Versatility:** Learn how the 9.3-micron CO_2 all-tissue laser can benefit almost every patient, every day with applications in restorative, soft tissue, implant, airway, tethered oral tissues, and cosmetic procedures. ***Plus an introduction to a NEW application for minimally invasive periodontal therapy.***
- **Practice Impact:** Understand how improved efficiency, clinical effectiveness, and patient experience combine to create a profound impact on practice growth.

To register please contact Zubair Ravat at

SPEAKER
LAUREN GADEBERG, DMD

Dr. Gadeberg obtained her DMD from Tufts University School of Dental Medicine, graduating in the top 10% of her class. While in dental school, Dr. Gadeberg received a Navy scholarship as part of the Navy Health Professions Scholarship Program (HPSP) and served in the United States Navy after graduation. As Lieutenant at Camp Lejeune, NC, she honed her skills in a wide range of clinical disciplines, providing care to the military personnel there. Over the course of 4 years, Dr. Gadeberg treated over 7,000 Marines and Sailors. While at Camp Lejeune, she also earned the Navy and Marine Corps Achievement Medal, the Meritorious Unit Commendation Award, and the Navy Expert Marksmanship Medal. Dr. Gadeberg is a member of various dental associations. She is enrolled in the American Academy of Implant Dentistry MaxiCourse at Rutgers University and is working to achieve her fellowship with the AAID. She is trained in and has experience with state-of-the-art emerging dental technologies including CAD-CAM 3-D imaging and printing of ceramic restorations.
